## TERMS AND CONDITIONS

Messe Friedrichshafen GmbH is only the mediator for your order.

The contractor is:

Suttner & Michel GmbH

Am Rohrbach 12/3

88045 Friedrichshafen

Tel. + 49 (0) 7541 53579, Fax +49 (0) 7541 55579

Email: m.michel@suttner-michel.de

### Terms of delivery and payment

- The order form for water supply, water installations and the installation sketch-map should be submitted to the responsible contractor as soon as possible but at the latest by the date given in the exhibitors' service file.
- The quoted prices include articles on loan for delivery, assembly, faults service, dismantling and collection but do not include VAT. The responsible service partner will invoice the service and this invoice is payable before exhibition starts. The invoice should be checked immediately. Complaints about the contents and amount of the invoice should be made before the stand is dismantled to allow proper rechecking.
- The order form must be submitted at the latest 14 days prior to the exhibition. If not a surcharge of 10 % will become due (with exception of the exhibitors who are admitted at short notice). In this case the Exhibition Management cannot guarantee the installation duly and within the agreed time limit.
- The exhibitor is not permitted to connect to available supply points himself. In this case the exhibitor would then be liable for all damages arising, as well as for the costs incurred due to the immediate disconnection by the service partner.

- Water will be exclusively supplied by the company "Stadtwerk am See". Therefore the water works term of delivery form a legally binding part of the organisers terms of installation. The organiser is not liable for water supply failure due to acts of God or caused by circumstances exceeding the organisers control. No responsibility is taken for fluctuations in water pressure.
- It is possible that a water supply point cannot be made available at the desired position of the hall floor as damage to the hall floor is not permitted. This means that you may have to accept a different location of the water supply point within your stand. If the nearest water supply point for the neighbouring stand is located within your stand, you have to accept this supply point and the connection piping. The same is valid for the sewer. No claims for compensation on the organizer can be made for such constructions which are necessary to properly supply an exhibition stand. The costs for concealing piping with wooden panelling are covered by the exhibitor.
- Each water supply point is accompanied by a sewer and a water seal.
- Installation material is rented to the exhibitor and remains the property of the service partner. The exhibitor is responsible for ensuring that all rented material is handed over to the service partner or is present and in working order when he starts to dismantle after the exhibition. Missing material or appliances will be charged to the exhibitor at the current rate.
- The above-mentioned conditions of delivery and payment are valid for all orders. Place of jurisdiction is Tettngang and place of performance is Friedrichshafen.
